Subpart A—Purpose, Scope, Definitions

§ 151.01 Purpose.

Section 11 of the Federal Fire Prevention and Control Act of 1974, provides that “each fire service that engages in the fighting of a fire on property which is under the jurisdiction of the United States may file a claim with the Administrator of the Federal Emergency Management Agency for the amount of direct expenses and direct losses incurred by such fire service as a result of fighting such fire.” This part, implements section 11 of the Act and governs the submission, determination, and appeal of claims under section 11.

§ 151.02 Scope.

Fire services, in any State, may file claims for reimbursement under section 11 and this part for the direct expenses and losses which are additional firefighting costs over and above normal operating costs incurred while fighting a fire on property which is under the jurisdiction of the United States. Section 11 requires that certain payments be deducted from those costs and that the Treasury Department will ordinarily pay the amount resulting from the application of that formula. Where the United States has entered into a contract (which is not a mutual aid agreement, defined in § 151.03) for the provision of fire protection, and it is the intent of the parties that reimbursement under section 11 is unavailable, this intent will normally govern. Where a mutual aid agreement is in effect between the claimant and an agency of the United States for the property upon which the fire occurred, reimbursement will be available in otherwise proper situations. However, any payments (including the value of services) rendered under the agreement

during the term of the agreement (or the Federal fiscal year in which the fire occurred, if no term is discernible) shall be deducted from the costs claimed, pursuant to § 151.12.

§ 151.03 Definitions.

(a) *The Act* means the Federal Fire Prevention and Control Act of 1974, 15 U.S.C. 2201 *et seq.*

(b) *Additional firefighting costs over and above normal operating costs* means reasonable and authorized (or ratified by a responsible Federal official) costs ordinarily associated with the function of firefighting as performed by a fire service. Such costs would normally arise out of response of personnel and apparatus to the site of the fire, search and rescue, exposure protection, fire containment, ventilation, salvage, extinguishment, overhaul, and preparation of the equipment for further use. This would also include costs associated with emergency medical services to the extent normally rendered by a fire service in connection with a fire. Not included are administrative expenses, costs of employee benefits, insurance, disability, death, litigation or health care, and the costs associated with processing claims under section 11 of the Act and this part.

(c) *Administrator* means the Administrator of the Federal Emergency Management Agency, or his/her designee.

(d) *Claimant* means a fire service as defined in paragraph (g) of this section.

(e) *Direct expenses and losses* means expenses and losses which would not have been incurred had not the fire in question taken place. This includes salaries for specially employed personnel, overtime pay, the cost of supplies expended, and the depreciated value of equipment destroyed or damaged. It does not include such costs as the ordinary wages of firefighters, overhead costs, or depreciation (if based on other than hours of use during fires). Expenses as defined herein would normally be incurred after the first call or alarm and would normally cease upon the first of the following: Return to station, report in-service and ready for further operations, or commence response to another incident.
